The company «Aqua Rodos» is a leader in the production of exclusive and serial bathroom furniture.

For more than 18 years, we have been creating a brand that our customers associate with high quality and impeccable furniture design. Our company is developing dynamically with capturing new areas of activity, gaining the favor of more and more new customers.

Understanding the responsibility to you, we work on the most modern and innovative equipment from leading manufacturers in the world, which allows us to create first-class furniture. In terms of equipment, the Aqua Rodos factory is unrivaled in Eastern Europe. Today, our total production and storage area exceeds 35,000 m^2, and the warehouse program is more than one hundred thousand units of products.

More than 700 qualified employees ensure the coordinated work of the factory. Since 2010, the company has developed, documented and implemented the "Quality Management System ISO 9001". We create bathroom furniture that is not only stylish, but with appearance of high quality, durability and reliability also. The production uses only environmentally friendly, certified materials from European manufacturers.

The furniture is produced of particle chipboard and MDF by TM «Egger» (Austria) and TM «Kronospan» (Poland), natural wood of ash tree. Moisture and glossy shine is achieved thanks to t he latest paint coating technologies materials of TM «KEMICHAL» (Italy).

The furniture is covered as well with natural veneer with a thickness of 0.6 mm of Italian production, eco-veneer «Renolit» (Germany). Mirrors and mirror elements of furniture, which made by AGC, are practically not exposed to moisture due to silver-based amalgam.

Mirrors are completed with outlets and high-quality LED lamps of the latest generation. Doors and drawers are equipped with high-quality components «Blum» and «Hettich», legs and handles of European manufacturers. Washbasins «CeraStyle» (Turkey), «Cersanit», «Kolo» (Poland), successfully complement the design of furniture.

Aqua Rodos' products meet the requirements of GOST 16371-93. «Furniture. General technical conditions». We are proud of the bathroom furniture that we manufacture, and we openly communicate with customers. Quality service is as important to us as product quality. All furniture units have a 36 months warranty. Furniture for the bathroom «Aqua Rodos» is traditionally high quality, aesthetics and reliability for your comfort.

Production Areas:
The total production area of the company's workshops today exceeds 35,000 m^2. The number of employees of the Aqua Rodos factory is more than 700 people. Experience in the manufacture of furniture 18 years.

Equipment:
Plate format processing – spray station «Selco WNT 730» production «Biesse» (Italy) and Holzma (Germany). Drilling and milling of technological holes occurs at the drilling centers «Biesse Skipper», «Biesse Rover», «Biesse Techno FDT» (Italy). Calibration and grinding of parts carried out on modern equipment «Biesse Viet» (Italy). Edging of material "Rehau" carried out on straight-line machines "Bisse Stream" (Italy).

Painting:
«CEFLA Finishing» has the most advanced technology for coating paint materials in the world - they are used in our new production complex, where the latest paint and varnish coating system is installed. The whole process takes place in closed chambers on automatic lines, which ensures a high quality of painting elements.
In the manufacture of furniture «Aqua Rodos", Polyester UV materials manufactured by KEMICHAL (Italy) are widely used. Thanks to their properties, high performance of paint lines resulting in high-quality coating is achieved.

Fittings and materials:
To complete the furniture, Aqua Rodos uses Blum (Austria), Hettich (Germany) fittings. The technology of hidden rails provides excellent smooth running of fully loaded boxes, allowing you to create furniture that meet the highest requirements.
The MDF and chipboard used for the production of furniture are supplied exclusively from leading manufacturers: «Kronospan» (Czech Republic), «Egger» (Austria). Natural Veneer (Italy). «Aqua Rodos» uses in the manufacture of bathroom furniture high-quality edging materials by world leader in production of polymer materials - company «Rehau» (Germany).

Ceramics:
All furniture «Aqua Rodos» is completed with high quality sinks from leading European manufacturers.

Storage & Transportation:
The total storage area of warehouses is 35,000 m^2. More than 100,000 units of finished products are stored in the company's warehouses. When transporting, the presentation of our products should remain unchanged, so packaged furniture «Aqua Rodos» have several levels of protection.
The design of the transport packaging of Aqua Rodos products can withstand up to 10 cycles of the loading/unloading process and allows the transportation of furniture over long distances.

ACCENT

- Washbasin: high quality TM «Aqua Rodos».
- Drawer front: 30 mm MDF.
- Side panels: 18 mm MDF.

UNIVERSAL MIRRORS

Wonderful bathroom mirror is an element that ensures a spectacular sight of the interior. “Aqua Rodos” advises to pay attention to the humidity-resistant mirrors “Alpha”, “Beta”, “Gamma”, “Omega”, “Olympia”, “Elit”, “Accent” and “Paris” with the contemporary design that highlights the lines of “Aqua Rodos” furniture. The universal mirrors are produced of the high-quality materials.

Mirrors 4 mm thick produced by the Belgian “AGC”, are covered with the silver-based amalgam, and characterized by the improved humidity-resistance. Mirrors are equipped with LED lightings, which favorably emphasizes the sanding pattern over the mirror perimeter. The mirrors are a perfect match to the “Aqua Rodos” bathroom cabinets of any sizes.

Mirrors are compliant with the ISO 9000:2001 requirements.
